POP UP PRODUCTS LIMITED

MI TOWER+

MI TOWER+ is a versatile and high-quality mobile access tower providing one work platform for two persons used throughout the building and construction industry for both indoor and outdoor access solutions, where a stable and secure platform is required.

Ideal for maintenance and installation work or short-term access. It is designed in accordance with the latest testing and quality standards. MI TOWER+ complies with BS EN 1004 with vertical ladder access. Platform heights between 2.0m & 6.0m internal / external.

MI TOWER+ is a safe, versatile, and high-quality access tower, specifically designed and created to solve common site issues. It can be built by one person with a work platform large enough for up to two people and their tools, holding a maximum weight of 240kg. Assembling the MI TOWER+ is quick and straightforward for one person, with a range of specifically designed security features that allow for easy yet secure construction in under 20 minutes. With a small footprint and a variety of heights available, the MI TOWER+ is ideal for use in a wide range of work sites, both indoor and outdoor.

MI TOWER + has a wider base compared to the MI TOWER which means two people can use this tower. The MI TOWER + can also be compacted down into a trolley which allows easy transporting and moving of the tower when on-site.

WORKING HEIGHT	4M, 5M, 6M, 7M, 8M
PLATFORM HEIGHTS	2M, 3M, 4M, 5M, 6M

CRADLE TO CRADLE CERTIFIED

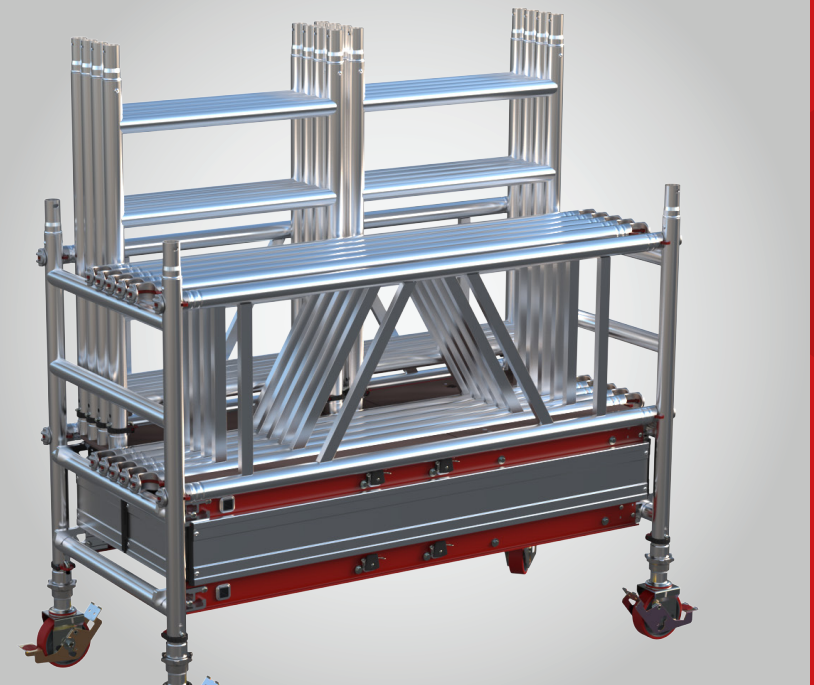

All raw materials and materials used in the production of the MI TOWER+ can be reused endlessly.

ECOVARDIS SILVER ACCREDITED

Pop Up Products has been awarded an EcoVadis Silver Medal. This achievement reflects our commitment to sustainable business practices, specifically in the production of the MI TOWER+.
